Expert in construction of innovative boiler houses, turnkey utilities. Everything from one source!

28.05.2021

**Dear Clients and Partners,**

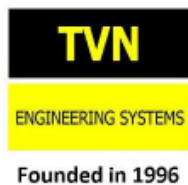

We are pleased to inform you that in May 2021 we have completed resetting TVN brand and it has acquired recognizable historical features of TVN abbreviation in a new style format.

The updated visual style of the company's brand reflects the attributes determined by the brand idea, i.e. reliability, dynamism, technical progress, brightness, openness, flexibility, responsibility.

Thus, TVN is responding to the changes in the plumbing, heating and air conditioning market and demonstrates that digitalization and innovation are being used to our own advantage, therefore we are getting with the times.

With a new corporate identity and a concomitant attack on products and services, the company traditionally emphasizes its market awareness.

TVN is a reliable and personal partner for efficient and innovative boiler houses.

The trademark / brand is registered in the State Register of the Russian Federation and with the International Intellectual Property Organization.

Best regards,  
Director General  
TVN Engineering Systems LLC  
Vladimir Teterin
